Regional Housing Need Plan for the San Francisco Bay Area: 2014–2022

State Highway Needs and Revenue Assessment

Summary of Predicted Land Use Responses

Summary of Predicted Traveler Responses

Transit Operating and Capital Needs and Revenue Assessment

Transportation Air Quality Conformity Analysis for Plan Bay Area and the 2013 Transportation Improvement Program

# Appendix 2 Maps

Appendix 2 includes a set of 18 detailed maps of the region showing key resource lands, job and housing growth (2010–2040), and total future housing and job intensities for 2040. For each topic, three close-up maps of different parts of the Bay Area region are included. See page 153 for legend information.

## Legend Information for Plan Bay Area Maps

Data	Description
<p><b>Critical Habitat</b></p> <p><b>Source:</b> National Marine Fisheries Service; U.S. Fish and Wildlife Service; California Department of Fish and Wildlife; California Natural Diversity Database.</p>	Includes lands designated as habitat for protected, sensitive or special-status species as defined by local, state or federal agencies, or protected by the federal Endangered Species Act, the California Endangered Species Act or the Native Plant Protection Act.
<p><b>Farmland</b></p> <p><b>Source:</b> Farmland Mapping and Monitoring Program, 2010.</p>	Includes voter-approved, agriculturally zoned land that is identified as important for protection from urban development, and land outside all existing city spheres of influence or city limits as of January 2010 that is one of the following Department of Conservation's Farmland Mapping and Monitoring Program (FMMP) classifications: <ul style="list-style-type: none"> <li>Prime Farmland</li> <li>Unique Farmland</li> <li>Farmland of Statewide Importance</li> </ul>
<p><b>Floodplains</b></p> <p><b>Source:</b> U.S. Federal Emergency Management Agency; data compiled by Greenbelt Alliance staff in February 2012.</p>	Floodplain areas identified as important for protection within a city's general plan. Based upon general plans and 100-year storm flood level from the U.S. Federal Emergency Management Agency.
<p><b>Grazing Lands</b></p> <p><b>Source:</b> Farmland Mapping and Monitoring Program, 2010.</p>	Defined by the FMMP in 2010, this category includes land on which the existing vegetation is suited to the grazing of livestock. This category was developed in cooperation with the California Cattlemen's Association, University of California Cooperative Extension and other groups interested in the extent of grazing activities.
<p><b>Greenbelt Reserves</b></p> <p><b>Source:</b> Based upon Local Jurisdiction General Plan maps. Data compiled by Greenbelt Alliance staff in March 2012.</p>	Large open space reserves that are set aside permanently or temporarily by a single jurisdiction or several jurisdictions.
<p><b>Hillside Areas</b></p> <p><b>Source:</b> Based upon local jurisdiction General Plan maps. Data compiled by Greenbelt Alliance staff in March 2012.</p>	Hillside areas identified as important for protection or conservation based on city and county general plans. Policies mapped include areas identified based up the slope of a hill, the area above a certain elevation, and the area within a certain vertical or horizontal distance from a ridge line.

## Legend Information for Plan Bay Area Maps *(Continued)*

### Data

### Description

---

#### Priority Conservation Areas

**Source:**

Association of Bay Area Governments, 2013.

These areas include lands of regional significance that have broad community support and an urgent need for protection. These areas provide important agricultural, natural resource, historical, scenic, cultural, recreational, and/or ecological values and ecosystem functions.

---

#### Publicly Owned Parks and Open Space

**Source:**

Data is derived from the Bay Area Protected Areas Database, Bay Area Open Space Council, 2012; California State Park Boundaries, 2012; The Conservation Lands Network, 2012.

These areas include publicly owned lands that are accessible to the public.

---

#### Riparian Corridors

**Source:**

Based upon local jurisdiction General Plan maps.  
Data compiled by Greenbelt Alliance staff in November 2011.

A policy that limits or prohibits new construction within a certain distance from rivers and streams to avoid the adverse impacts of urban development, such as pollution runoff, erosion and habitat degradation.

---

#### Urban Boundary Zones

**Source:**

Based upon local jurisdiction General Plan maps.  
Data compiled by ABAG Planning staff, March 2012.

Includes areas within Urban Growth Boundaries/ Urban Limit Lines, Urban Service Areas and Spheres of Influence. For more information, see the supplementary report, *Summary of Predicted Land Use Responses*.

---

#### Urbanized Areas

**Source:**

Farmland Mapping and Monitoring Program, 2010.

Includes land designated as Urban and Built-up as defined by the Farmland Mapping and Monitoring Program in 2010. These lands include areas occupied by structures with a building density of at least 1 unit to 1.5 acres, or approximately 6 structures to a 10-acre parcel. This land is used for residential, industrial, commercial, construction, institutional, public administration, railroad and other transportation yards, cemeteries, airports, golf courses, sanitary landfills, sewage treatment, water control structures, and other developed purposes.

---

#### Williamson Act Lands

**Source:**

Williamson Act Program, California Department of Conservation, 2006.

The California Land Conservation Act of 1965 — commonly referred to as the Williamson Act — enables local governments to enter into contracts with private landowners for the purpose of restricting specific parcels of land to agricultural or related open space use. Some Williamson Act contracts are set to expire and be decommissioned during the plan period.
