

PURPOSE AND NEED:

To improve Traffic Safety and Operations, and relieve Traffic Congestion at 92/880 Interchange

KEY FEATURES:

- New EB 92 TO 880 NB Connector Ramp
- New WB 92 TO 880 SB Connector Ramp
- Reconstruction of Calaroga Bridge
- Reconstruction of Eldridge POC for ADA Compliance
- Improvements at Hesperian Blvd Interchange
- On Route 880, add Auxilliary Lanes from Winton Avenue to Route 92, and from Route 92 to Tennyson Road in both directions

PROJECT LIMITS:

The project boundaries are on I-880 just north of the Tennyson Road Overcrossing to just south of the Winton Ave Overcrossing and on Route 92 west of the Mount Eden Overhead to just east of Santa Clara Street.

GENERAL INFORMATION:

- The contractor is FCI Constructors/Granite Construction, Joint Venture
- Contract Allotment is \$150 million
- Construction began on 10/26/07. Estimated Completion Date is 06/01/2011
- Separate landscape contract will follow after construction completion
- The Project is funded primarily by Bay Area Toll Authority (BATA) providing approximately 141 million and Alameda County Transportation Authority (ACTA) providing \$9.6 million
