EXECUTIVE SUMMARY

The Metropolitan Transportation Commission (MTC) is the transportation planning, coordinating and financing agency for the nine-county San Francisco Bay Area. MTC is also the region's federally-designated metropolitan planning organization (MPO) and supports the goals of the U.S. Department of Transportation's (U.S. DOT) Limited English Proficiency Guidance.

U.S. DOT requires that agencies take reasonable steps to provide meaningful access to its services, programs and activities to persons with limited English proficiency. Individuals for whom English is not their primary language and who have a limited ability to read, write, speak or understand English are limited English proficient, or "LEP." The 2019 Plan for Special Language Services to LEP Populations (2019 Plan) was created with the aim of ensuring MTC's language assistance measures reflect the needs of LEP persons across the nine-county San Francisco Bay Area region, and that LEP persons are able to meaningfully access important components of its services, programs and activities. The 2019 Plan serves as an update to the Agency's 2013 Plan for Special Language Services to LEP Populations (2013 Plan).

U.S. DOT LEP Guidance requires a Four-Factor Analysis, or LEP needs assessment, to determine what reasonable steps should be taken to ensure meaningful access by LEP persons. This Four-Factor Analysis considers the following:

Factor 1:	The number or proportion of LEP persons eligible to be served or likely to be encountered in the eligible service population.
Factor 2:	The frequency with which LEP persons come in contact with MTC's programs, activities and services.
Factor 3:	The nature and importance to LEP persons' lives of MTC's programs, activities and services.
Factor 4:	The resources available to MTC and the overall cost to provide language assistance.

Following U.S. DOT guidelines, MTC explored multiple data sources and conducted targeted outreach to develop the Four-Factor Analysis. The key findings from the Four-Factor Analysis shaped the development of the 2019 Plan for Special Language Services to LEP Populations.

To determine the number or proportion of LEP persons eligible to be served or likely to be encountered in the eligible service population, MTC analyzed U.S. Census American Community Survey (ACS) data to identify the San Francisco Bay Area's LEP population. Based on U.S. Census ACS data from 2016, the Factor 1 Analysis identified 1,264,820 individuals over the age of five who speak English less than "very well." This figure accounts for 17.5 percent of the San Francisco Bay Area population. MTC identified 31 individual languages and language groups that are spoken by more than 1,000 estimated LEP persons.

Across the San Francisco Bay Area, the five most frequently spoken languages other than English are Spanish at 7.3 percent of the San Francisco Bay Area Population, Chinese at 4.2 percent, Vietnamese at 1.5

percent, Tagalog at 1.2 percent and Korean at 0.4 percent. It should be noted that the overall population of LEP persons and the distribution amongst the top five languages spoken by LEP persons is largely consistent with the U.S. Census data when the Four-Factor Analysis was conducted in 2013.

To determine the frequency with which LEP persons come in contact with MTC's programs, activities and services, MTC reviewed and analyzed past interactions with LEP persons including call center and language line data, website data, Interactive Voice Response data and requests for both interpretation and translation by LEP persons.

To determine the nature and importance to LEP persons' lives of MTC's programs, activities and services, data was collected through surveys of MTC staff and third-party contractors (2018). Additionally, MTC analyzed data from interviews with community-based organizations (CBO), LEP person focus groups and LEP person surveys (2013).

To determine the resources available to MTC and the overall cost to provide language assistance, MTC assessed the existing and available resources – monetary, staff and otherwise – and explored cost saving measures to provide services.

According to the Four-Factor Analysis findings, described in detail in this report, MTC concluded as it did in the 2013 Plan that documents identified as Tier 1 Vital Documents will be translated into Spanish and Chinese without a request. Providing language assistance in Spanish and Chinese gives the two largest population groups who are identified as speaking English less than "very well," access to information and services in their language spoken at home. Subject to available resources and/or upon request, MTC provides translation of Vital Documents or other documents into languages other than Chinese and Spanish.

As part of its commitment to ensuring that LEP persons receive reasonable access to necessary language assistance, MTC has established guidelines for the translation of Vital Documents and determined that Vital Documents are either critical for obtaining services or benefits or required by law. The three-tier system for identifying and translating Vital Documents is detailed in Section 4.0, Vital Documents Guidelines.

Furthermore, MTC offers a wide range of tools for LEP populations, including written and oral language assistance, website translation, multilingual community outreach and in-language local media engagement. As part of MTC's evaluation, the agency has developed an inventory of language assistance services currently being provided and has also identified additional language assistance services that can be implemented — depending on budget availability — to further provide meaningful access to LEP persons (see Section 2.4, Factor 4 Analysis, and Section 3.0, Language Assistance Measures).

MTC works to ensure that its staff and third-party contractors are aware of and sensitive to the needs of LEP persons. MTC developed a variety of materials and guidelines to ensure that staff are trained on procedures for accommodating LEP populations, including training staff on the 2013 Plan and subsequent plans. Specific training elements are discussed in this report (see Section 5.0, Staff Training).

MTC provides notice to LEP persons regarding the availability of language assistance through various practices that are outlined in this report (see Section 3.0, Language Assistance Measures).

MTC regularly monitors and updates its Plan for Special Language Services to ensure meaningful access to its programs and services by LEP persons, using a combination of qualitative and quantitative approaches to monitor whether the Plan for Special Language Services effectively meets the needs of LEP persons

across the nine-county San Francisco Bay Area region. MTC regularly reviews demographic data of San Francisco Bay Area LEP populations and solicits feedback from MTC staff, LEP persons and CBOs serving LEP individuals. MTC will also evaluate its methods of notification to LEP persons as the agency updates its Plan for Special Language Services.

1.0 INTRODUCTION

MTC is the transportation planning, coordinating and financing agency for the nine-county San Francisco Bay Area. MTC functions as both the regional transportation planning agency — a state designation — and, for federal purposes, as the region's MPO.

MTC serves a region unique in its diversity and expansive in its reach. MTC's jurisdiction covers the nine counties that touch the San Francisco Bay, including Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano and Sonoma, and includes 101 municipalities. More than seven million people reside within the region's 7,000 square miles, with over 90 languages spoken within its boundaries and 31 individual languages and language groups other than English that are spoken by more than 1,000 residents. The region also boasts 26 public transit operators, which together carry nearly 500 million passengers per year.

As a recipient of federal funds, MTC follows the United States Department of Transportation Policy Guidance (U.S. DOT 2005) concerning recipients' responsibility to provide meaningful access to services, programs and activities to LEP persons. Individuals for whom English is not their primary language and who have a limited ability to read, write, speak or understand English are considered limited English proficient, or "LEP." The Plan for Special Language Services to LEP Populations (2019 Plan) was created with the aim of ensuring that MTC's language assistance measures reflect the needs of LEP persons across the nine-county San Francisco Bay Area region, and that LEP persons are able to meaningfully access important components of MTC's services, programs and activities. The 2019 Plan serves as an update to MTC's 2013 LAP.

MTC's Public Participation Plan for the San Francisco Bay Area is a separate, related document that describes opportunities for the public to get involved in the transportation planning process. Copies of the Public Participation Plan can be found in English, Spanish and Chinese on MTC's website at:

www.mtc.ca.gov/get_involved/participation_plan.htm.

Authority and Guidance

Federal regulations require that recipients of federal funds take reasonable steps to ensure meaningful access to benefits, services, information and other important portions of their programs and activities for individuals with limited English proficiency. Title VI of the Civil Rights Act of 1964 and its implementing regulations state that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity that receives federal financial assistance.

A Presidential Executive Order was issued to federal agencies in August 2000 relative to LEP populations. Executive Order 13166 — Improving Access to Services for Persons with Limited English Proficiency — indicates that differing treatment based upon a person's ability to speak, read, write or understand English is a form of national origin discrimination.

In 2007, the Federal Transit Administration Office of Civil Rights released a handbook — Implementing the Department of Transportation's Policy Guidance Concerning Recipients' Responsibilities to Limited English Proficient (LEP) Persons — to provide recipients with technical assistance to implement federal guidelines.

The U.S. DOT LEP Guidance notes that effective implementation plans typically include the following five elements:

1. Identifying LEP individuals who need language assistance
2. Providing language assistance measures
3. Training staff
4. Providing notice to LEP persons
5. Monitoring and updating the Plan

The FTA Title VI Circular to 4702.1B — Title VI and Title VI-Dependent Guidelines for FTA Recipients— provides guidance to grantees on how to comply with Title VI regulations and specifies recommended steps to ensure grantees provide meaningful language access to persons who are limited English proficient.

MTC has developed the 2019 Plan to address the needs of LEP populations in the nine-county San Francisco Bay Area per the U.S. DOT guidance to provide meaningful assistance to LEP persons. The aforementioned resources were used to guide the development of the Four-Factor Analysis and the 2019 Plan.

2.0 FOUR-FACTOR ANALYSIS

In order to prepare the 2019 Plan for Special Language Services to LEP Populations, MTC completed the U.S. DOT's Four-Factor Analysis to determine what reasonable steps should be taken to ensure meaningful access to its services by LEP persons. The Four-Factor Analysis considers the following:

Factor 1:	The number of proportions of LEP persons eligible to be served or likely to be encountered in the eligible service population.
Factor 2:	The frequency with which LEP persons come in contact with MTC's programs, activities and services.
Factor 3:	The nature and importance of LEP persons' lives of MTC's programs, activities and services.
Factor 4:	The resources available to MTC and the overall cost to provide language assistance.

In accordance with U.S. DOT guidelines, MTC examined multiple data sources and conducted targeted outreach to develop the Four-Factor Analysis.

The data collected and analyzed includes surveys of MTC staff and third-party contractors (2018), interviews with staff members from four CBOs serving LEP populations (2013), four LEP person focus groups conducted in native languages (2013) and 945 LEP person surveys (2013). MTC also reviewed and analyzed past interactions with LEP persons including call center and language line data, website data, translation logs and requests for interpretation by LEP persons.

This chapter highlights the methodology and key findings from the Four-Factor Analysis that shaped the development of the 2019 Plan.

2.1 Factor 1 Analysis: The number or proportion of LEP persons eligible to be served or likely to be encountered in the eligible service population.

For the Factor 1 Analysis, MTC analyzed the U.S. Census ACS data from 2016 to identify the Bay Area's LEP population. The ACS is a continuous nationwide survey conducted monthly by the U.S. Census Bureau. It is intended to measure changing socioeconomic characteristics and conditions of the population on a recurring basis.

ACS reports data based on the four categories of English-speaking ability: "very well," "well," "not well" and "not at all." MTC defines the LEP population as individuals who speak English less than "very well," which is consistent with U.S. DOT guidelines.

Findings from the Factor 1 Analysis indicate that 17.5 percent of the Bay Area population speaks English less than "very well." The ACS data identified 31 individual languages and language groups with 1,000 or

more people who speak English less than “very well” and would be considered LEP persons. The five most frequently spoken languages among LEP persons are Spanish, Chinese, Vietnamese, Tagalog and Korean (see Table 1 below for a detailed breakdown).

Within the nine-county San Francisco Bay Area, Spanish-speaking persons account for the largest share of the LEP population with 7.3 percent, followed by Chinese-speaking persons with 4.2 percent. Vietnamese-speaking LEP persons represent 1.5 percent of the population, while Tagalog-speaking persons account for 1.2 percent and Korean-speaking persons account for 0.4 percent. A complete breakdown of the languages spoken at home by ability to speak English is available in Appendix B. The percentage breakdown of LEP persons across the top five most frequently spoken languages among LEP persons is nearly identical to the ACS Survey data included in MTC’s 2013 Plan.

MTC created GIS maps to show concentrations of LEP persons who speak the five most frequently spoken languages among LEP persons within the MTC service area (shown in Figure 1). The GIS dot density map, in Figure 1, illustrates the geographic distribution of the LEP population across the San Francisco Bay Area.

* MTC used ACS data for LEP persons that speak English less than "very well" for the Factor 1 Analysis, as per the definition of LEP provided in FTA Circular 4702.1B.

Figure 1: Top 5 Languages Spoken at Home for Populations with Limited English Proficiency

In compliance with U.S. DOT guidelines, MTC also incorporated the Safe Harbor Provision into its Factor 1 Analysis. The Safe Harbor Provision of the FTA Title VI Circular (4702.1B) states that:

“DOT has adopted DOJ’s Safe Harbor Provision, which outlines circumstances that can provide a “safe harbor” for recipients regarding translation of written materials for LEP populations. The Safe Harbor Provision stipulates that, if a recipient provides written translation of vital documents for each eligible LEP language group that constitutes five percent (5%) or 1,000 persons, whichever is less, of the total population of persons eligible to be served or likely to be affected or encountered, then such action will be considered strong evidence of compliance with the recipient’s written translation obligations. Translation of non-vital documents, if needed, can be provided orally. If there are fewer than 50 persons in a language group that reaches the five percent (5%) trigger, the recipient is not required to translate vital written materials but should provide written notice in the primary language of the LEP language group of the right to receive competent oral interpretation of those written materials, free of cost.”

Based on the analysis conducted under Factor 1, the findings indicate that within MTC’s nine-county service area, there are 31 languages and language groups that are spoken by more than 1,000 LEP persons. Based on the complete Four-Factor Analysis described in the 2019 Plan, MTC concluded that providing regular language assistance in Spanish and Chinese would give certain population groups who are identified as speaking English less than “very well” access to MTC’s services, programs and activities.

2.2 Factor 2 Analysis: The frequency with which LEP persons come in contact with MTC’s programs, activities or services.

For Factor 2 of the Four-Factor Analysis, MTC analyzed several data sources to assess how frequently LEP individuals come in contact with MTC programs, activities and services. In accordance with U.S. DOT guidelines, MTC collected data and analyzed findings from the following sources:

- Call Center Data for MTC Services and Programs
- Website Data for MTC Services and Programs
- MTC Staff Surveys (2018)
- MTC Contractor Staff Surveys (2018)
- LEP Person Surveys (2013)
- LEP Person Focus Groups (2013)

For the three different surveys, frequency was measured based on four categories of interaction: “very frequently,” “frequently,” “somewhat frequently” and “never.” These categories do not have specific time intervals associated with them, such as daily, weekly or monthly. Instead, MTC explored a broad array of data sources to develop a comprehensive understanding of the agency’s overall contact with LEP persons. This included call center data, website data, IVR selections and focus group data. Collectively, these data sources helped MTC assess the frequency with which LEP persons come in contact with MTC’s services and programs.

Following U.S. DOT guidance, MTC conducted a thorough review of its programs, activities and services, which are detailed in Table 2.

Table 2: MTC Programs, Activities and Services to LEP Persons

Program, Activity or Service	LEP Component
MTC Meetings, Key Planning and Funding Activities	<ul style="list-style-type: none"> → Key planning documents include, but are not limited to, the Regional Transportation Plan and the Transportation Improvement Program. → MTC contracts with a firm to translate key documents (or summaries of documents) and/or provide in-person interpretation assistance as needed upon request. → Flyers for major community workshops and similar meetings include instructions on how to request translation services. → MTC’s website includes Spanish and Chinese language content, including translated versions or summaries of selected documents. → Public participation plans for MTC’s long-range plan include seeking out views of LEP populations by, for example, conducting meetings in languages other than English and designing content to be sensitive to the needs of low-literacy populations. → Meeting notices include multilingual notification on how to request translation services.
Motorist-Aid Call Boxes	<ul style="list-style-type: none"> → Instructions on call boxes are printed in English and Spanish; English- and Spanish-speaking dispatchers are available at all times through the toll-free dispatch center. → For other languages, dispatchers connect speakers to a translation service for assistance (available at all times).
Freeway Service Patrol (FSP)	<ul style="list-style-type: none"> → Tow truck drivers have a card available in multiple languages (Spanish, Chinese, Vietnamese and Tagalog). → Translation service is available to assist via telephone through dispatch center.

Clipper® Fare Payment System	<ul style="list-style-type: none"> → The program is available in English, Spanish and Chinese. Materials are printed in these three languages (separate versions in each language). Likewise, advertising is trilingual (separate versions in each language), telephone service (automated service) is available in these three languages; for self-serve “add value” machines, customers can select their language preference when they begin a transaction. → Website is in English with short program overviews in both Spanish and Chinese. → Customer service center’s live support can connect with a translation service. → Card readers are English-only due to limited capacity and a small display screen.

-
- 511 Traveler Information
- 511.org – The website uses Google’s “Select Language” drop-down menu feature, offering Spanish and Chinese translations. The following pages include content that has been professionally translated into Chinese and Spanish: 511 Phone Service, 511 Freeway Assist, Privacy Policy, Terms of Use and Accessibility.
 - 511 Phone – All functions of the 511 Phone System that are available in English are now available in Spanish. Callers press *3 to access the Spanish interactive voice response system. Essential resources are now also available on the 511-phone system in Cantonese and Mandarin. By pressing *4 (for Cantonese) or *5 (for Mandarin), callers can enter touchtone commands to access important traveler information as well as free transfers to 511 Freeway Assist, Clipper® and FasTrak®, as well as public transit and paratransit agency call centers.
 - Freeway Assist - When callers are transferred from the 511 Phone System to the Freeway Assist call center, customers can speak to operators who use a third-party language translation service.
 - 511 Carpool/Vanpool Program - When callers are transferred from the 511 Phone System to a 511 Carpool or Vanpool representative, customers can speak to operators who use a third-party language translation service.
 - 511 RideMatch – The RideMatch website uses Google’s “Select Language” drop down menu feature, offering Spanish and Chinese translations. The Match List Request (MLR) form, an enrollment form used to add new registrants to the RideMatch system, is available in Spanish and distributed at public events. A dedicated outreach staff member, who is fluent in Spanish, is available for employer events and community events.
-

- Regional Transit Hub Signage Program
- Way-finding and transit information signs rely on universal icons/pictographs to bridge language barriers.
 - Limited space for text on signs precludes use of languages other than English in most cases.
-

MTC provides the operating programs identified in Table 2 through third-party contractors. The largest operating programs are Clipper® and FasTrak®. MTC surveyed third-party contractor staff who provide direct customer service at the Clipper® and FasTrak® Customer Service Centers (CSCs) on behalf of MTC or who are likely to come in contact with LEP individuals. Surveyed staff members included customer service representatives, service operators and program managers who provide services for MTC throughout the region. For more information on the contractor survey, see the survey section of the Factor 2 Analysis.

To determine the frequency of contact with LEP individuals, MTC used various methods including a review of call center requests for language line services and website data for the number of translated website page views for MTC programs and services.

Clipper® Fare Payment System

Clipper® is an all-in-one transit card that keeps track of passes and cash value, while recognizing and applying all applicable fares, discounts and transfer rules. Clipper® has been implemented at all San Francisco Bay Area transit agencies. MTC oversees Clipper® and the operation of the Clipper® Customer Service Center.

Table 3 shows the number of language line calls for MTC’s Clipper® Card program in 2017. Spanish and

Chinese language line calls for Clipper® make up approximately 3.5 percent of the total calls.

**Table 3: Calls to Clipper® Language Line Services,
January 2017 – December 2017**

Language	Number of Language Line Calls	Percentage
Spanish	8,845	2.66%
Chinese	2,850	0.86%
English	321,089	96.49%
Total	332,784	100%

Table 4 shows the number of IVR selections for Clipper® language line calls in 2017. IVR is a technology that allows a computer to interact with a human through the use of voice and tonal input via telephone keypads. Spanish and Chinese IVR selections for the Clipper® Card program make up less than three percent of the total IVR selections.

FasTrak®

The FasTrak® electronic toll collection system allows customers to pay bridge tolls electronically and avoid stopping at toll plazas. FasTrak® has been operational on all seven of the state-owned toll bridges in the nine-county San Francisco Bay Area, as well as the Golden Gate Bridge, since December 2000. Each bridge includes at least one electronic toll collection-dedicated toll booth to ease traffic congestion and speed travel. The San Francisco Bay Area Toll Authority (BATA) oversees the FasTrak® electronic toll collection system and operation of the FasTrak® CSC. Note that although FasTrak® does not receive any federal funds, MTC included FasTrak® data in the Four- Factor Analysis because it is an important customer-oriented service used by LEP populations.

Table 5 shows the total number of page views and visits from the FasTrak® website’s top Chinese and Spanish pages in 2017. The translated pages first went live in January 2017. The combined number of page views for the top Spanish and Chinese pages together in 2017 is 133,901 views and the combined number of visits for both Spanish and Chinese is 107,122 visits.

511 Traveler Information

511 is the one-stop phone and web source for up-to-the-minute San Francisco Bay Area traffic, transit, carpool, bicycling and parking information. It is available 24 hours a day and seven days a week from anywhere in the nine-county San Francisco Bay Area.

The 511-phone system is available in Spanish, Cantonese and Mandarin. 511 ran an advertising campaign between May 2018 and June 2018 to promote the automated phone services to Spanish speakers. Over three weeks, 30 advertisements placed in transit shelters in San Francisco, San Jose, Oakland and Gilroy resulted in an estimated 2.7 million impressions. Accompanying online advertisements received 1,591,186 impressions and 1,964 clicks.

Table 6 shows the total number of IVR calls that 511 received between October 2017 and June 2018. 511’s data logging process was modified beginning in October 2017. The combined number of IVR calls in Spanish, Cantonese and Mandarin is 4,015 calls and represents approximately 0.11 percent of the total number of IVR calls.

MTC Website

MTC examined available website data to estimate the number of non-English page views for its various programs and services. The MTC website provides the public with information on the services, programs and activities of the agency. The website includes individual web pages in Spanish and Chinese with summaries of key information and important announcements.

In December 2015, MTC launched a new website. Table 7 shows the total number of unique page views that MTC's website received each year since the December 2015 launch (and the corresponding percentage). The table also includes unique page views for the Spanish and Chinese translated pages. The combined number of unique page views for the Spanish and Chinese pages represent less than one percent of the total number of page views to the MTC website.

Table 9 shows the total number of unique translated page views via Localize that MTC’s website and the Plan Bay Area website received. Translation via Localize is the option to translate the entire site into either Spanish or Chinese, as opposed to web pages that have been specifically translated by MTC. MTC launched this service for the Plan Bay Area website in March 2017.

Plan Bay Area is a state-mandated, integrated, long-range transportation, land-use and housing plan in the nine-county San Francisco Bay Area. It builds on earlier efforts to develop an efficient transportation network and grow in a financially and environmentally responsible way. It is updated every four years to reflect new priorities.

The combined number of unique translated via Localize page views for the Spanish and Chinese versions of the Plan Bay Area website between March 2017 and July 2018 represents nearly three percent of the total number of page views to the Plan Bay Area website. The combined number of unique translated via Localize page views for the Spanish and Chinese versions of the MTC website between January 2017 and

July 2018 represents one percent of the total number of page views to the MTC website.

Social Media

Social media is an emerging channel by which LEP persons come into contact with MTC’s programs, activities and services. MTC will continue to monitor social media to better assess the frequency and

nature of interactions with LEP populations. The social media landscape is ever evolving, with new platforms, tools and communications channels emerging frequently. MTC will determine if social media should be included in the next iteration of the Plan for Special Language Services to LEP Populations.

Surveys

In 2018, MTC conducted an agency-wide staff survey to determine the frequency and importance of contact with LEP individuals across all MTC departments, as well as a third-party contractor survey. Third-party contractors include customer service representatives, service operators and program managers who provide services for MTC across the region through programs such as Clipper®, 511, FasTrak® and Freeway Service Patrol. MTC surveyed third-party contractor staff who provide direct customer service on behalf of MTC or who are likely to come into contact with LEP individuals. A total of 97 MTC agency staff and 82 MTC third-party contractors completed the surveys.

It should be noted that the 2019 Plan analyzes LEP user data collected as part of the 2013 Plan. MTC has had very few programmatic and service shifts since the 2013 Plan. MTC compared the staff and contractor survey data collected as part of the 2019 Plan to the survey data collected as part of the 2013 Plan. The data sets appeared very similar. **The lack of significant shifts in the data, paired with the lack of programmatic shifts, suggests that the LEP user survey data from 2013 is still relevant.**

The MTC agency staff and MTC third-party contractor surveys from 2018 indicate that agency staff “somewhat frequently” and “never” communicate with LEP persons (see Table 11) while third-party contractors “very frequently” and “frequently” communicate with LEP persons (see Table 12). A large majority of LEP persons encountered by MTC third-party contractors speak Spanish, followed by Chinese.

As part of the 2013 Plan for Special Language Services to LEP Populations, MTC partnered with CBOs that work directly with LEP communities to distribute and administer a survey to LEP persons. The LEP Person survey was translated into five languages (Spanish, Chinese, Vietnamese, Tagalog and Korean) and distributed to over 21 CBOs across the nine-county San Francisco Bay Area. An English version of the LEP Person survey was distributed to allow LEP persons of other linguistic populations (e.g., Cambodian, French, Russian, Amharic and Japanese) to provide input and feedback on the 2013 Plan for Special Language Services.

As part of the 2013 LAP, MTC also conducted targeted LEP survey outreach to collect input from geographically and linguistically diverse LEP populations. A total of 945 surveys were returned by LEP respondents from throughout the nine-county San Francisco Bay Area. Figure 2 is an illustration of the number of surveys received by language.

Figure 2: 2013 LEP Person Survey Response by Language

Table 13 illustrates LEP persons' rate of contact with MTC programs, services and activities. MTC held four focus groups as part of the 2013 Plan with LEP persons to evaluate current language assistance measures.

Summary

Based on the Factor 2 Analysis, MTC determined that Spanish- and Chinese-speaking LEP individuals are in most frequent contact with MTC's programs, activities and services. However, the combined results from the various data sources indicate that LEP persons' frequency of contact with MTC programs, activities and services varies. MTC determined that LEP persons who do utilize MTC's services are in more contact with certain programs and services, specifically Clipper®, 511 and FasTrak®. Overall, LEP persons are far less likely to request information or assistance accessing MTC's policy or financial documents, such as the Regional Transportation Plan or the Transportation Improvement Program.

Across programs and services, the majority of the LEP persons encountered by MTC staff and MTC contractors speak Spanish, followed by Chinese. The language groups with the most contact were Spanish and Chinese (Cantonese and Mandarin), followed by Vietnamese, Tagalog and Korean.

2.3 Factor 3 Analysis: The nature and importance of MTC's programs, activities and services to LEP persons' lives.

Following U.S. DOT guidelines, MTC reviewed various data sources and incorporated findings from the Factor 2 Analysis to determine the nature and importance of the programs provided by MTC to LEP individuals' lives. MTC identified the critical services to LEP persons by reviewing the following data sources:

- MTC Staff Surveys (2018)
- MTC Contractor Surveys (2018)
- LEP Person Surveys (2013)
- LEP Person Focus Groups (2013)

The findings of the Factor 3 Analysis describe the nature and importance of MTC programs and services to LEP communities. Following a thorough review and analysis of staff surveys and LEP person surveys, the results indicated that MTC's programs, activities and services are important to LEP populations.

Table 14 shows that approximately 36 percent of MTC agency staff and over 80 percent of MTC third-party contractors who participated in the survey describe MTC programs and services for LEP persons as "extremely important" or "important." According to the survey data, MTC third-party contractors, rather than MTC agency staff, communicate far more frequently with LEP persons (see Tables 11 and 12 in the Factor 2 Analysis).

Table 14: Importance of Services to LEP Persons, 2018 MTC Agency Staff and MTC Third-Party Contractor Survey Respondents

	Very Important	Important	Somewhat Important	Not Important	Unknown
MTC Agency Staff	18.56%	17.53%	14.43%	23.71%	25.77%
MTC Third-Party Contractors	50.00%	31.71%	6.10%	3.66%	8.54%

Table 15 shows the importance of MTC programs and services according to the 2013 LEP person survey. For those who participated in the survey, FSP and roadside call boxes are the most important services.

**Table 15: Importance of MTC Programs and Services,

As a transportation planning agency, MTC plays a vital role in identifying and implementing future investments and long-range strategies to maintain, manage and improve transportation throughout the region. Access to the planning process in general, will affect residents in the long-term and not in an immediate manner.

Although the majority of LEP respondents from the 2013 LEP persons survey reported that long-range transportation planning is “important” or “very important” to them, a review of interpretation and translation requests for MTC’s policy and long-range transportation planning documents indicates that LEP persons rarely request these documents.

MTC reviewed the available records from the Agency’s various programs regarding interpretation and translation requests from 2013 to 2016 and found that requests by LEP persons have been minimal. Table 16 shows the requests for interpretation services from LEP persons. A total of seven requests for interpretation have been made, including four in Spanish and three in Chinese. Of these seven requests for interpretation, four from the same Plan Bay Area housing forum. Requests for translation are nearly nonexistent and occur, on average, less than once a year.

Table 16: Requests for Interpretation, 2013 – 2016

Date	Requestor	Meeting / Host	Language
2/20/2016	LEP Individual	2016 Housing Forum/PBA2040	Cantonese
		2016 Housing Forum/PBA2040	Spanish
		2016 Housing Forum/PBA2040	Mandarin
		2016 Housing Forum/PBA2040	Spanish
9/8/2015	LEP Individual	Lifeline Project	Spanish
5/13/2015	LEP Individual	A PBA2040 CBO meeting	Mandarin
4/22/2013	LEP Individual	Plan Bay Area Open House/Public Hearing	Spanish

MTC’s Legislation and Public Affairs team handles interpretation and translation requests in order to accommodate anticipated language access needs. The low number of interpretation and translation requests may also result from the increased availability of translated materials. As detailed in the Factor 2 Analysis, many MTC programs and services are already translated. Translated materials and services include website pages, documents and automated phone services.

Despite MTC’s critical role and unique position throughout the San Francisco Bay Area, the general public lacks awareness of MTC’s planning and funding activities. The results from the 2013 LEP person focus groups indicated that many of the focus group participants were not familiar with MTC or many of the Agency’s programs and services (e.g., 511 Traveler Information and FSP).

Some of MTC’s programs have a larger reach, including the Clipper® Card, the 511-traveler information system, the regional transit hub signage program, motorist-aid call boxes, freeway service patrols and FasTrak®. Based on the LEP person surveys, these programs and services operated by MTC were found to be of critical importance to LEP populations. However, because many of the programs and services operated by MTC have their own individual names and branding (e.g., Clipper® and FasTrak®), the general public often does not associate them with MTC.

2.4 Factor 4 Analysis: The resources available to MTC and overall cost to provide language assistance.

In accordance with U.S. DOT guidelines, MTC incorporated findings from the first three factors, internal data on translation costs and data from a series of interviews with CBOs.

The Factor 4 Analysis considers the resources available to MTC and the costs for translation services. These financial resources and costs impact MTC’s ability to translate documents into multiple languages. A breakdown of the costs can be found in Appendix N.

In 2014, MTC awarded a contract to a translation firm for on-call services. The allocation of the contract by year is based on the year previous and additional anticipated translation needs. Since the 2013 Plan, the budget allocation for translation services has grown each year. In fact, the contract allocation nearly doubled from \$17,000 for fiscal year 2014-2015 to \$30,000 for fiscal year 2018-2019.

These translation expenditures do not include project-specific expenditures associated with certain MTC programs like Clipper® or FasTrak®, which often hold their own project-specific contracts for translation. Similarly, the figure does not capture certain costs associated with providing in-language assistance such as printed materials, services within project budgets or other translation and interpretation efforts that may have been associated with specific projects.

In addition to these costs, MTC considered other factors such as the number of staff and percentage of staff time that is associated with providing language assistance. MTC maintains one full-time staff member who dedicates 20 percent of their time to managing the on-call translation contract and facilitating ongoing translation requests.

Additionally, of the 97 staff members who completed the 2018 staff survey, 11 indicated being fluent in Spanish, seven indicated being fluent in Chinese, one indicated being fluent in Tagalog and 14 indicated being fluent in another language not listed. Of those 33 staff members who indicated being fluent in a language other than English, only eight indicated using their language capabilities to support communications with LEP individuals in their work. Of the 82 contractors who completed the contractor survey, 14 contractors indicated being fluent in Spanish, five indicated being fluent in Chinese, seven indicated being fluent in Tagalog, two indicated being fluent in Vietnamese and five indicated being fluent in another language not listed. Of those 33 contractors who indicated being fluent in a language other than English, 24 indicated using their language capabilities to support communications with LEP individuals in their work. It should be noted that MTC staff and contractors are not certified translators or interpreters and that they are used on an as needed basis to provide additional language support.

Interviews with CBOs provided information about the most effective ways to communicate with LEP persons, which in turn assist MTC in developing cost-effective language assistance measures. For example, Spanish-speaking participants noted that they prefer to receive information via television, CBOs or churches and flyers in the community. Chinese-speaking participants noted that they prefer to receive information via Chinese radio, television, CBOs or churches and word of mouth. Across languages, participants noted that print newspaper ads are not as valuable a way to communicate. In order to maximize resources, MTC should utilize these best practices as a means to save costs.

It is important to note that the CBO interview findings indicated that some LEP persons have low-literacy levels in their native languages, and by extension, translating documents may not be the most helpful form of language assistance.

As noted in Section 3.1 of the 2019 Plan, MTC currently offers an array of tools for LEP persons to access programs, services and activities. Through the information gathering efforts required for the Four-Factor LEP needs assessment, MTC determined that LEP persons and other stakeholders are satisfied with the Agency's current language assistance measures. However, with each update of the 2019 Plan, MTC will continue to identify strategies to strengthen and improve its language assistance efforts.

2.5 Four-Factor Analysis Conclusion

MTC determined that translation of Vital Documents and access to services should be provided in Spanish and Chinese languages as a matter of course. Upon request and subject to available resources, MTC will provide translation into other languages. Based on the Four-Factor Analysis findings, MTC also developed "Vital Documents Guidelines" to advise staff on Agency protocol for document translation (see Section 4.0, Vital Documents Guidelines). With only small changes in the services, activities and program provided by MTC and the LEP populations U.S. Census data, the 2019 Plan's Four-Factor Analysis mirrors the 2013 Plan's Four-Factor Analysis.

3.0 LANGUAGE ASSISTANCE MEASURES

MTC uses a number of techniques and practices to provide meaningful, early and continuous opportunities for all interested San Francisco Bay Area residents to participate in dialogues that inform key decisions, regardless of language barriers. The following section includes a review of MTC's current language assistance measures and suggestions for future language assistance measures.

3.1 Current Language Assistance Measures

As part of MTC's evaluation of its experiences with LEP persons, the Agency developed an inventory of language assistance services currently being provided. A complete review of MTC's programs, activities and services and the current LEP component by program can found in Table 2.

For MTC's programs that more directly serve San Francisco Bay Area residents (e.g. Clipper®, 511 Traveler Information and FasTrak®), measures have been incorporated to provide access for LEP populations. MTC conducts periodic checks of translated materials to ensure that they are interpreted correctly and requires translators and interpreters to meet its competency standards.

Since the 2013 Plan, MTC has expanded staff awareness of language assistance guidelines detailing Agency protocol on how to interact with and provide services to LEP populations, as well as staff awareness of the availability of translated materials.

MTC currently offers a wide range of tools for LEP populations, including written and oral language assistance, as well as community outreach and local media engagement. These language assistance tools and strategies are detailed below:

Written Language Assistance

- Translate select printed materials for the various traveler services provided by MTC (e.g., Clipper®, FasTrak®, FSP, Call Boxes) into Spanish and Chinese as a matter of routine, and other languages as requested
- Translate flyers for major community workshops and similar meetings including instructions on how to request translation services
- Translate press releases, brochures, fact sheets and portions of long-range transportation planning documents into Spanish and Chinese, and other languages as requested
- Utilize third-party, multi-lingual website translation services (e.g. Google Translate) to translate online content for various MTC programs and services
- Optimize Chinese and Spanish third-party website translation services by manually correcting translated text
- Advertise notices of availability of multi-lingual translation for MTC meetings and events
- Advertise key opportunities for public participation in Chinese and Spanish community newspapers
- Avoid overly complex or technical terms and write in clear, compelling language in a style appropriate to the intended audience

Oral Language Assistance

- Operate Language Line services to provide oral language assistance for various MTC programs and

services

- Employ multi-lingual MTC staff and customer service personnel
- Contract with a language translation firm for on-call assistance on an “as needed” basis (e.g., interpreters for public meetings)
- Contract with a language translation firm for on-the-spot interpreter assistance on an “as needed” basis (e.g., to assist callers who speak languages other than Chinese and Spanish)
- Evaluate competency of translators
- Use audio recording devices to obtain oral comments at key public workshops and meetings
- Utilize bilingual staff to interpret information on an “as needed” basis

Community Outreach

- Provide bilingual staff at community outreach events in LEP communities
- Provide interpreters at community meetings as needed
- Develop meaningful partnerships with advocates of LEP persons
- Consult with MTC’s Policy Advisory Council, which includes appointed representatives from communities of color and low-income communities (populations that frequently include LEP persons)
- Partner with community non-profits that can assist in tailoring presentations, meeting materials and meeting announcements to meet the language needs of local LEP participants
- Provide financial assistance (in response to competitive requests for proposals) to CBOs that work with LEP persons for such activities as co-hosting and conducting meetings in multiple languages and assistance with identifying LEP individuals for participation in community focus groups or public meetings

Media and Public Relations

- Distribute translated press releases to non-English language community newspapers, radio stations, or television stations to announce public meetings for the long-range regional transportation plan, major corridor studies, or to announce other important transportation news
- Purchase display ads in non-English language community newspapers to announce important opportunities for public participation
- Work with non-English language media outlets (print or electronic media) to place articles or public service announcements about MTC’s work or announce participation opportunities

3.2 Future Language Assistance Measures

MTC has identified additional language assistance services that may be implemented to further provide meaningful access to LEP persons. These suggestions for future language assistance services are based on MTC staff and contractor surveys, interviews with CBOs, LEP person focus groups and LEP person surveys. Moreover, these suggestions take into account Agency resources and staff time.

Future outreach efforts to LEP populations that MTC will consider include the following:

- Utilize the “Vital Documents Guidelines” to determine translation needs and appropriate languages (see Section 4.0)
- Conduct outreach to LEP populations to inform them of MTC’s language assistance services
- Create mechanisms for MTC staff to document LEP participation at MTC meetings and events (e.g., sign-in sheets and surveys)
- Use robust visualization techniques including pictographs, maps, charts and images to illustrate

instructions (e.g., Clipper® fare payment) and transit system info (e.g., regional transit hub signage program)

- Develop a regional glossary of commonly used transportation terms and translate those terms
- Continue to hire diverse and multi-lingual, multi-cultural staff members
- Regularly remind Agency staff of the resources and tools available to them for translation needs

These language assistance suggestions, in addition to the practices MTC already has in place, are designed to help MTC streamline its efforts to assist LEP persons and determine the best approach to language assistance services.

4.0 VITAL DOCUMENT GUIDELINES

MTC is committed to full compliance with Title VI and Executive Order 13166 to provide meaningful access and reduce barriers to services and benefits for LEP persons. In accordance with the U.S. DOT guidelines, MTC must determine which “Vital Documents” should be translated into the languages that meet MTC’s translation threshold.

To assist staff in determining the critical information and documents for translation, MTC has developed “Vital Documents Guidelines.” Classification of a document as Vital depends upon the importance of the program, information, service or encounter involved, and the consequence to the LEP person if the information in question is not provided accurately or in a timely manner.

4.1 Language Translation Threshold

The Factor 1 Analysis, described in Section 2.1, identified 1,264,820 individuals over the age of five who speak English less than “very well” (U.S. Census Bureau, 2016 ACS). This figure accounts for 17.5 percent of the San Francisco Bay Area population. Using ACS data, MTC identified 31 individual languages and language groups with 1,000 or more people who speak English less than “very well” and would be considered LEP persons (see Appendix B).

Within the nine-county San Francisco Bay Area, Spanish-speaking persons account for the largest share of the LEP population with 7.3 percent, followed by Chinese-speaking persons with 4.2 percent. Within the remaining six percent of other LEP languages in the San Francisco Bay Area, there is no language that exceeds two percent of the LEP population share. Based on the Four- Factor Analysis related to 1) the number and proportion of LEP persons in the MTC service area, 2) the frequency of contact with LEP persons, 3) the importance of MTC programs and services to LEP persons’ lives and 4) the resources available to MTC, the Agency has determined that only Spanish and Chinese meet the Language Translation Threshold.

MTC concluded that providing language assistance in Spanish and Chinese would give the two largest population groups who are identified as speaking English less than “very well,” access to information and services in their language spoken at home. Documents determined as Vital will be translated into Spanish and Chinese without a specific request for translation.

4.2 Categories of Vital Documents

MTC’s Vital Documents have been defined as follows:

1. Any document that is critical for obtaining services and benefits. Classification of a document as Vital depends upon the importance of the program, information, service, or encounter involved, and the consequence to the LEP person if the information in question is not provided accurately or in a timely manner.
2. Any document that is required by law.

The importance of MTC documents to LEP persons varies depending on multiple factors, including time-sensitivity and impact on legal rights. MTC has ranked Vital Documents into three tiers according to the definition above. MTC will re-evaluate these tiers on an on-going basis as language assistance demands and needs evolve.

Although a document may be classified as Vital, MTC is not required to provide a word-for-word translation. Instead, a summary of relevant information may be sufficient. The decision to translate Vital Documents will be weighed against available resources and staff capacity. MTC will continue to revise these guidelines as the Agency updates its Plan for Special Language Services.

Tier 1: Critical documents

Tier 1 documents are the Agency's highest priority. MTC will translate Tier 1 Vital Documents without request. Tier 1 documents include:

- Documents that, without translation, would seriously impede access by LEP persons to MTC services or programs
- Documents which, without translation, would deprive LEP persons of an awareness of their legal rights, particularly rights to language assistance

Tier 1 documents include Title VI information, legal and public hearing notices and select information for MTC services such as:

- Notification to beneficiaries of protection under Title VI
- Title VI complaint form
- Documents which would have life-threatening consequences, if not translated, such as information on construction projects that include information on construction safety and impacts
- Fare and service change notices related to the Clipper® program

Tier 2: Documents that will enhance access to MTC services and programs

Tier 2 documents include information that will enhance or facilitate the customer experience for LEP individuals. MTC will translate any Tier 2 Vital Document upon request. Additionally, some Tier 2 Vital Documents, at MTC's discretion and subject to available resources, will be translated without request. These documents may include the following:

- General MTC information
- Meeting announcements, agenda packets and other information for MTC Commissioners, Committee Meetings and Policy Advisory Council
- Promotional events that offer benefits to MTC customers (e.g., free or discounted Clipper® cards)

Tier 3: Documents that will enhance and support participation of LEP persons in transportation decision-making

Tier 3 documents include information that encourage LEP persons to participate in MTC transportation planning efforts. MTC will translate any Tier 3 Vital Document upon request. Additionally, some Tier 3 Vital Documents, at MTC's discretion and subject to available resources, will be translated without request. These documents may include the following:

- Information regarding long-range, regional transportation planning
- Long-term plans regarding transportation funding investments
- Environmental Impact Reports
- Legal notices published in newspapers announcing public comment periods on various documents or for other planning-related programs

5.0 STAFF TRAINING

MTC works to instill in its staff and third-party contractors an awareness of and sensitivity to the needs of LEP persons. MTC provides multilingual access to its operating programs, such as those identified in Table 2, through third-party contract service providers.

Both MTC staff and third-party contractors — staff who provide direct customer service on behalf of MTC or who are likely to come into contact with LEP individuals through programs such as Clipper®, FasTrak® and Freeway Service Patrol — are trained on procedures for accommodating LEP populations. MTC uses various approaches to provide staff with LEP training, which are described below.

Training Materials

As a follow up from the 2013 Plan, MTC instituted a formal webinar training that all MTC staff are required to participate in. The training includes an introduction to Title VI requirements, an overview of MTC's Title VI program and a detailed outline of how to provide meaningful access and assistance to LEP persons. Training materials include instructions for how to respond to phone inquiries and written communications from LEP persons. Training materials also include instructions on how to arrange for translation services and how to utilize the "Vital Documents Guidelines." The training features a quiz component to ensure active participation with the training material.

MTC will continue to develop and revise training materials for staff who interact with LEP populations.

Special Projects

As public participation or public information campaigns are developed, MTC provides staff training about the need to be alert to and anticipate the needs of LEP persons. For example, planning staff who attend public workshops to answer questions and get feedback from attendees are trained to look for ways to draw out participants who seem to be reluctant to speak due to language barriers. When display boards are used, planners are taught to be mindful of participants who might be struggling to read complex materials and converse with them, if appropriate, as they view the materials rather than assume that they are able to read all the materials.

"Brown Bag" Lunch Sessions

MTC conducts "brown bag" sessions to provide staff with a quick orientation on a number of issues. Periodically, a session will focus on special issues of diversity, including sensitivity to the needs of LEP populations.

6.0 NOTIFICATION TO LEP PERSONS

In accordance with Title VI regulations, the public must be informed of their rights. MTC provides notice to LEP persons through various practices including:

- Notice of the availability of language assistance and translation services on MTC's website
- Notification at MTC's Library, Reception Desk, and Board Room which are open to the public
- Documents (e.g., flyers, press releases, legal notices and brochures) that describe an LEP person's right to access MTC's services, translated into other languages
- Routine use of language on printed or electronic announcements for public workshops on key planning efforts that alert interested individuals on how to request translation services
- Display advertisements in ethnic media outlets to promote the availability of language assistance services
- Partnerships with CBOs that serve LEP populations to disseminate notices of availability of language assistance services
- Notifications on social media to promote the availability of language assistance services
- Paid advertising campaigns to promote the availability of language assistance services (e.g., mobile, transit shelter and online advertisements)
- Public service announcements to promote language assistance

Additionally, MTC notifies LEP persons on the website that MTC has a number of procedures in place to assist Bay Area residents who are not proficient in the English language – free of charge. LEP persons can request language interpretation at meetings or other assistance as well as document translations by contacting MTC via the public information phone number.

7.0 PLAN MONITORING AND UPDATING

MTC will monitor and update the 2019 Plan, as needed, to ensure meaningful access to its programs and services by LEP persons. MTC will use a combination of qualitative and quantitative approaches to monitor whether the 2019 Plan effectively meets the needs of LEP persons across the nine-county San Francisco Bay Area region. MTC will also periodically review demographic data of San Francisco Bay Area LEP populations and solicit feedback from MTC staff and third-party contractors, LEP persons and community-based organizations serving LEP individuals to evaluate the effectiveness of the 2019 Plan.

By establishing an evaluative review of the 2019 Plan, MTC can assess whether its language assistance services are effective and have impacted relations with LEP communities, especially as there are changes in the provided programs and services, methods of communication (e.g., social media) and needs of LEP persons. MTC will monitor implementation by soliciting regular feedback from MTC staff and third-party contractors, CBOs and LEP persons.

In compliance with U.S. DOT guidelines, MTC will monitor and evaluate the 2019 Plan by reviewing the following information:

- Changes in the number and proportion of LEP persons in the nine-county San Francisco Bay Area
- New demographic data from the U.S. Census and ACS
- Changes in the frequency of contact with LEP language groups (e.g., language line usage and translated website page views)
- Nature and importance of programs, services and activities to LEP persons
- Expansion of MTC services and programs
- Changes in the availability of resources, including technological advances and/or the identification of additional financial resources
- The effectiveness of current language assistance measures in meeting the needs of LEP persons
- Feedback from LEP persons on the effectiveness of current language assistance services
- Staff knowledge and understanding of the 2019 Plan and how to implement it
- Third-party contractor knowledge and understanding of the 2019 Plan and how to implement it
- The effectiveness of staff LEP trainings and Agency-wide language assistance protocol (e.g., "Vital Documents Guidelines")

APPENDIX C

MTC Staff Survey (2018)

**MTC Language Assistance Plan (LAP)
MTC Staff Questionnaire**

Please help the Metropolitan Transportation Commission (MTC) collect the data needed to update the agency's Language Assistance Plan (LAP). MTC's 2013 Language Assistance Plan can be found online at <https://mtc.ca.gov/about-mtc/public-participation/get-language-assistance> and aims to help Limited English Proficient persons who speak English "less than well" and who have a limited ability to read, write, or understand English access MTC's services.

The following questions are about your interactions (if any) with Limited English Proficient (LEP) persons. Your answers will allow us to better serve people who speak languages other than English.

Your answers to this staff questionnaire will be treated confidentially and will be used only for MTC planning.

Thank you for your assistance!

Check the appropriate box to answer questions or fill in the appropriate blanks.

APPENDIX J

Focus Group Summary Responses (2013)

**Responses/Comments from Cantonese LEP Person Focus Group
Hosted by Chinatown Community Development Corporation
San Francisco Chinatown (July 21, 2010)**

The focus group was attended by 18 Cantonese speakers. Comments from the focus group are listed below.

Regarding Translation Process at Meetings:

- About 1/3 prefer simultaneous translation w/ headsets (must have *functional* headsets)
- About 2/3 prefer delayed translation with a live person
- A presentation entirely in Cantonese, however, is preferable to everyone.
- Positive points about meetings with translators:
 - able to understand everything as it happens
 - able to respond appropriately when you understand the specifics of the meeting
 - able to communicate with other people and tell them *our* opinion
 - good to have dialogue between people of different backgrounds and languages
- Negative points about meetings with translators:
 - some people can't hear the translations
 - doesn't work without an accurate translator
 - also, people might not respond well if the interpreter isn't sensitive

What would draw you to a meeting/event about transportation issues?

- An interesting meeting topic
- To learn about a new service or program
(want to learn about other issues like services, welfare, benefits, health care, housing, topics related to life issues, topics related to attendees' immediate interest)
- If the meeting were co-sponsored by a community-based group
- Childcare and lunch or dinner would make it easier to attend
- Transit pass or other gift: does not affect attendance; when topic affects them, they will come, gift or not

What is the best way to notify you about a meeting or important news?

- An announcement from a community group or church: this method especially helpful.
- Postcard or letter: a good method if in a language they can read
- Advertisement in a newspaper: not as helpful because they may not get the newspaper; more likely to watch TV or listen to radio
- Other ways: inform each other through friends/word-of-mouth

- No one recommended an e-mail notice because no one had internet access

Other than a meeting, what venue/forum would you most likely use to express your views?

- Focus groups or small group meetings — a good/preferred method
- One-on-one interviews — some people indicated this would be a good option, others said many seniors would be too scared to participate
- Survey by a community group — a good option
- Write a letter — a few mentioned they might do this
- Mail survey — not likely to respond to a mail survey
- Phone comment line — not likely to respond; would hang up if someone called

**Responses/Comments from Spanish LEP Person Focus Group
Hosted by the Spanish Speaking Citizens Foundation
Oakland Fruitvale Community (July 24, 2010)**

The focus group was attended by 23 Spanish speakers. Comments from the focus group are listed below.

Regarding Translation Process at Meetings:

- Prefer a meeting conducted entirely in Spanish
- It helps to be able to see the person doing the translation
- Prefer a person translating rather than headsets
- Don't trust that translation is correct
- May not translate the entire response or comment
- The interpreter may inject her opinion in both translating from English to Spanish and from when translating from Spanish to English

What would draw you to a meeting/event about transportation issues?

- An interesting meeting topic
- To learn about a new service or program
- If the meeting were co-sponsored by a community-based group
- Childcare would help people be able to attend
- Transit pass or other gift would encourage attendance
- Lunch or dinner would be nice, but not as critical to their attendance

What is the best way to notify you about a meeting or important news?

- An announcement from a community group or church: this method especially helpful.
- Postcard or letter: a good method if in a language they can read
- Advertisement via television stations: a good method
- Advertisement in a newspaper not as helpful; mentioned that distribution of some community newspapers is limited
- Other ways: flyers distributed in the community
- A telephone message could be a good idea, except phone numbers tend to change frequently
- A small minority suggested an e-mail notice or use of a website; most participants did not have internet access

Other than a meeting, what venue/forum would you most likely use to express your views?

- Focus groups or small group meetings — a good/preferred method
- Other good techniques: One-on-one interviews; a survey by a community group; a survey received in the mail
- Would leave a phone message, for example, on a phone comment line
- Would write a letter to express views
- Only a few of the younger participants were open to techniques on the web

**Responses/Comments from Vietnamese LEP Person Focus Group
Hosted by the Viet Voters of Northern California
San Jose, California (December 15, 2012)**

The focus group was attended by 27 Vietnamese speaking participants of various ages. The majority of participants resided in San Jose.

Participants were given a brief introduction to the Metropolitan Transportation Commission (MTC) and the development of the Language Assistance Plan. Participants were then asked to introduce themselves and identify the general neighborhood where they lived. Next, they were asked a series of discussion questions to collect their input on their transportation needs, language assistance measures and effective methods of communication.

Facilitators also described the various transportation services offered by MTC as well as the language assistance services available to the public. At the end of the session, participants were thanked for their time and provided with information on how to utilize MTC services and programs.

All questions asked of participants and their responses are summarized below. Since respondents were not limited to one response and not required to answer all questions, the response count total for each question may be larger or smaller than the total number of focus group participants.

Question #1: What type of transportation do you use most often?

- (18) Bus (SamTrans)
- (3) Train (Caltrain)
- (4) Walk or ride a bicycle
- (6) Personal vehicle
- (4) Carpool/ Rideshare
- (0) Taxi
- (0) Other

Question #2: What language do you speak at home?

- (3) English
- (0) Spanish
- (0) Chinese
- (0) Korean
- (26) Vietnamese
- (0) Tagalog
- (0) Other

Question #3: Please identify how well you speak English.

- (0) Very well
- (2) Well
- (20) Not well
- (7) Not at all

Question #4: Which of the following Metropolitan Transportation Commission services do you use?

- (1) 511
- (2) Clipper Card
- (2) FasTrak
- (0) Call Boxes for Roadside Assistance
- (0) Freeway Service Patrol (Roving Tow Trucks)
- (18) None

Question #5: Did you know that Metropolitan Transportation Commission (MTC) provides the following language assistance services?

- (2) Language Line Services
- (0) Translation/ Interpretation at MTC meetings upon request
- (0) MTC website information (in Spanish or Chinese)
- (0) 511 website information (in Spanish or Chinese)
- (0) Clipper website information (in Spanish or Chinese)
- (0) FasTrak website information (in Spanish or Chinese)
- (0) Other

Question #6: What are your suggestions for additional language assistance services that the Metropolitan Transportation Commission should consider to improve its services? Please be specific.

- Speakers on the bus to make announcements
- Announce transit stops in multiple languages
- Bus drivers who speak multiple languages

Question #7: Do you currently receive information from or about the Metropolitan Transportation Commission?

- (0) Yes
- (14) No
- (8) Don't know

Question #8: What is the best way to notify you about a meeting or important news?

- (0) Email notice
- (13) Postcard or letter
- (2) Ad in newspaper
- (0) MTC's website
- (10) Announcement from community group or church
- (6) Other: Local Vietnamese newspapers and radio stations

Additional key findings:

- Participants indicated that postal mail (e.g., postcards), local community-based organizations and ethnic media are effective ways to inform Vietnamese-speaking individuals of important news or meetings.
- Many of the focus group participants were not familiar with MTC and lacked awareness of MTC's programs and services (e.g., 511 Traveler Information, Freeway Service Patrol).
- The majority of focus group participants have never used any of MTC's language assistance services.

**Responses/Comments from Spanish LEP Person Focus Group
Hosted by the Community Learning Center
South San Francisco, California (December 18, 2012)**

The focus group was attended by 18 Spanish speaking participants of various ages. The focus group participants included 16 women (age range of 23-75) and 2 males (age range of 30-50). The majority of participants resided in South San Francisco near the Community Learning Center.

Participants were given a brief introduction to the Metropolitan Transportation Commission (MTC) and the development of the Language Assistance Plan. Participants were then asked to introduce themselves and identify the general neighborhood where they lived. Next, they were asked a series of discussion questions to collect their input on their transportation needs, language assistance measures and effective methods of communication.

- (0) FasTrak website information (in Spanish or Chinese)
- (0) Other

Question #6: What are your suggestions for additional language assistance services that the Metropolitan Transportation Commission should consider to improve its services? Please be specific.

- Better customer service personnel
- Easier directions to access services over the telephone
- More promotion of services available in key access points (e.g. churches, schools)
- More access to customer service operators not automated voice assistance

Question #7: Do you currently receive information from or about the Metropolitan Transportation Commission?

- (0) Yes
- (12) No
- (5) Don't know

Question #8: What is the best way to notify you about a meeting or important news?

- (1) Email notice
- (7) Postcard or letter
- (1) Ad in newspaper

APPENDIX M

Summary Responses of Community-Based Organization Interviews

CBO Interview #1: Hayward Day Labor Center (Hayward)

CBO Staff: Gabriel Hernandez, Executive Director

January 4th, 2012

Population Overview

1. What geographic area does your agency serve?

Southern Alameda County (Hayward, Union City, Oakland).

2. How many people does your agency provide services to?

350 to 400 members annually.

3. Has the size of the population you serve increased, stayed the same, or decreased over the past five years?

Increased.

4. What are the countries of origin from which your population has immigrated?

Approximately 75% - 80% are from Guatemala, Mexico and Honduras. (mostly rural)

5. Does your population come from an urban or rural background?

Mostly rural.

6. What are the languages spoken by the population you serve?

Spanish, Quiche, Quetzal and English.

7. What is the age and gender of your population?

Males account for 75% of the population, ages 16-35. Females account for 25% of the population, ages 25-45 years old.

8. What is the education and literacy level of the population you serve?

Approximately 35% – 40% are not literate in any language.

Transportation

9. Has the population inquired about how to access public transportation or expressed a need for public transportation service?

Clients inquire about public transit in order to access employment opportunities.

10. What are the most frequently traveled destinations?

Clients travel across the Bay Area for work in all nine counties. Most of the clients travel within the East Bay.

11. Do the transit needs and travel patterns of the population vary depending on the age or gender of the population members?

Travel patterns vary by gender and age.

12. Are there locations that the population has expressed difficulty accessing via the public transportation system?

Accessing public transit in the North Bay counties and cities (e.g., Sonoma County, the City of Santa Rosa) is difficult.

13. Has the population expressed an interest in getting involved in the transportation planning process?

The organization works with BART to provide trainings and information sessions to the population. These trainings are initiated by transit agencies; however, the population attends trainings and has expressed interest in attending other related workshops.

Communication

14. What needs or expectations for transportation-related language access services has this population expressed?

Low literacy levels in both English and the native languages of clients is an important consideration for language access services.

15. What are your suggestions for language assistance measures that MTC should consider to improve its services?

Using more visuals including colors and symbols to explain the public transit system would help improve accessibility to those with lower literacy levels. MTC should also incorporate cell phone technology in its public outreach efforts (e.g., text messages).

16. Do you think long-range planning and programming documents should be translated upon request or automatically translated for your community?

Easy to understand instructions on how to access transportation services (e.g., how to use a Clipper card) are critical for accommodating low-literacy passengers.

17. What is the best way to obtain input from the population?

Collaborate with community organizations and trusted community leaders.

18. Who would the population trust most in delivering language appropriate messages?

Many clients trust information from the police and community-based organizations.

CBO Interview #2: Community Learning Center (South San Francisco)

CBO Staff: Marta Bookbinder, Collaborative Projects Coordinator

January 15th, 2012

Population Overview

1. What geographic area does your agency serve?

South San Francisco. According to U.S. Census 2010, the population is 63,632.

2. How many people does your agency provide services to?

Agency serves 737 people annually.

3. Has the size of the population you serve increased, stayed the same, or decreased over the past five years?

Stayed the same.

4. What are the countries of origin from which your population has immigrated?

Ninety percent (90%) are from Latin America. Of those, most are from Mexico (90%).

5. Does your population come from an urban or rural background?

Both urban and rural, though 70% are from rural backgrounds.

6. What are the languages spoken by the population you serve?

Spanish is the primary language. 70% of constituents are monolingual Spanish speakers.

7. What is the age and gender of your population?

The Community Learning Center (CLC) serves children and adults from ages 3 – 100. The gender distribution is 60% female and 40% male.

8. What is the education and literacy level of the population you serve?

The majority (80%) of clients have an elementary school education and literacy level..

Transportation

9. Has the population inquired about how to access public transportation or expressed a need for public transportation service?

Yes. Some clients have requested trainings on public transportation (e.g. how to get to specific locations and how to use different public transportation services). Most of these requests are based on functional need.

10. What are the most frequently traveled destinations?

The corridor from San Francisco to Santa Clara is among the most frequently traveled routes. Another frequent route is the Cal-tran corridor.

11. Are there locations that the population has expressed difficulty accessing via the public transportation system?

There is difficulty accessing the coast side (e.g., Half Moon Bay, Pescadero). There is very minimal public transit service to the coast side and the farming communities.

12. Do the transit needs and travel patterns of the population vary depending on the age or gender of the population members?

Travel patterns vary by gender and age.

13. Has the population expressed an interest in getting involved in the transportation planning process?

Clients have expressed interest in the issues that are important to them, such as eliminating routes or fare changes. If clients are informed of meetings in accessible locations, they often will attend.

Communication

14. What needs or expectations for transportation-related language access services has this population expressed?

Clients have expressed a need for better customer service personnel. MTC and transit operators should keep in mind the various literacy levels of passengers. Transit agencies should use more visuals and develop more intelligently crafted instructions.

15. What are your suggestions for language assistance measures that MTC should consider to improve its services?

Using pictures and symbols for public transit services would help improve accessibility to those with lower literacy levels. Transit agencies should also incorporate instructions in the primary language of customers. Transit agencies should have a "help" button if customers get stuck on the phone (e.g., a button option that states "Would you like to speak with an operator").

16. Do you think long-range planning and programming documents should be translated upon request or automatically translated for your community?

Information regarding routes and fares should be translated. Customers need translated information and instructions on how to access transit services and how to pay for transit services.

17. What is the best way to obtain input from the population?

Convene focus groups. Work with CBOs as allies and partners in promoting services and information. Use simple and appealing language when reaching out to LEP customers.

18. Who would the population trust most in delivering language appropriate messages?

The population trusts local, well-known community leaders and institutions, such as churches and libraries.

CBO Interview #3: Vietnamese Voluntary Foundation, VIVO (San Jose)

CBO Staff: Cat Nguyen, Director of Operations

January 16th, 2013

Population Overview

1. What geographic area does your agency serve?

Santa Clara County.

2. How many people does your agency provide services to?

10,000 people served annually. VIVO serves 1,100 – 1,300 people weekly through non-event services.

3. Has the size of the population you serve increased, stayed the same, or decreased over the past five years?

Increased.

4. What are the countries of origin from which your population has immigrated?

About 90% of clients are from Vietnam. VIVO serves many Vietnamese refugees. Other clients served are Chinese, Iranian, Iraqi, Nepalese, Somali, Hispanic, Bosnian, Burmese, Ethiopian, Cambodian, and Filipino. VIVO's food program serves mostly Hispanics and Vietnamese. Recent refugees often come for employment services. VIVO has a contract with Santa Clara County to provide employment and acculturation services.

5. Does your population come from an urban or rural background?

Approximately 90% are from rural backgrounds.

6. What are the languages spoken by the population you serve?

Chinese, Iranian, Iraqi, Nepalese, Somali, Spanish, Bosnian, Burmese, Ethiopian, Cambodian, and Tagalog. VIVO staff are equipped to serve all the languages.

7. What is the age and gender of your population?

Seniors primarily, but the agency serves everyone including youth and adults. Gender distribution is 60% female, 40% male.

8. What is the education and literacy level of the population you serve?

Most have elementary-level education and are limited English speakers. Approximately 30% of the clients have limited literacy in their native language.

Transportation

9. Has the population inquired about how to access public transportation or expressed a need for public transportation service?

Yes, both elderly and recent refugees ask about how to access public transit. Many clients do not own cars. Public transportation is a crucial asset to these populations. Carpooling and informal ridesharing among clients is an important alternative for transit-dependent people. The agency provides transportation and service delivery to disabled clients through VIVO's food program.

10. What are the most frequently traveled destinations?

San Jose City, Fremont and routes to public transit are frequently traveled destinations.

11. Are there locations that the population has expressed difficulty accessing via the public transportation system?

Recreation destinations such as San Francisco and Monterrey are difficult to access. Job destinations like Milpitas, Gilroy, Fremont, and Sunnyvale are important locations for VIVO's population to have access to via public transit.

12. Do the transit needs and travel patterns of the population vary depending on the age or gender of the population members?

Travel patterns vary by gender and age. Most clients travel out of necessity because of limited resources to pay for transit.

13. Has the population expressed an interest in getting involved in the transportation planning process?

No.

Communication

14. What needs or expectations for transportation-related language access services has this population expressed?

Clients inquire about how to access specific locations (e.g., doctor's office, social service building, etc.) using public transit. Clients have difficulty navigating transit stops due to limited English skills. Most clients do not have internet and cannot access traveler information online.

15. What are your suggestions for language assistance measures that MTC should consider to improve its services?

Arrange for spoken and written translations in appropriate languages. Translate services into as many languages as you can. Examine the language needs of certain cities (e.g., San Jose needs to have Spanish and Vietnamese language services because of the demographics). Improve passenger knowledge of how to navigate the transit stops (e.g., how to get from here to there). Increase public outreach and better publicize language line services.

16. Do you think long-range planning and programming documents should be translated upon request or automatically translated for your community?

Anything that MTC wants people to read needs to be translated. This includes information regarding fee increases, schedule changes, route maps and public meetings.

17. What is the best way to obtain input from the population?

One-on-one communication from a source the population trusts (e.g., VIVO, churches). Hold meetings at VIVO's office to promote and advertise transportation services. People trust the places that are already serving them such as schools, local businesses and markets. Radio and local television is also a good resource. There is a huge media base in Santa Clara County.

18. Who would the population trust most in delivering language appropriate messages?

There is mistrust of mainstream institutions and government agencies. Refugees are often fleeing oppressive governments. There is greater trust in grassroots communication and word-of-mouth transfer of information.

CBO Interview #4: Chinese Newcomers Service Center (San Francisco)

CBO Staff: George Chan, Program Coordinator

February 13th, 2013

Population Overview

1. What geographic area does your agency serve?

San Francisco Chinatown.

2. How many people does your agency provide services to?

The agency averages about 100 clients per day.

3. Has the size of the population you serve increased, stayed the same, or decreased over the past five years?

Increased.

4. What are the countries of origin from which your population has immigrated?

China, Vietnam, Hong Kong, Taiwan, Singapore.

5. Does your population come from an urban or rural background?

Mainly urban.

6. What are the languages spoken by the population you serve?

Chinese (Mandarin, Cantonese, Tai-shen-ese) and Vietnamese.

7. What is the age and gender of your population?

Various ages from 18-85. The population includes both males and females.

8. What is the education and literacy level of the population you serve?

Most non-English speaking clients have less than a high-school education.

Transportation

- 9. Has the population inquired about how to access public transportation or expressed a need for public transportation service?**

Not quite, they say the informative posters on Muni are good.

- 10. What are the most frequently traveled destinations?**

Chinatown, Sunset District, Silver Street, Cow Plaza and Mission District.

- 11. Are there locations that the population has expressed difficulty accessing via the public transportation system?**

Yes, the Sunset District is difficult to access because public transit is slow.

- 12. Do the transit needs and travel patterns of the population vary depending on the age or gender of the population members?**

Yes, workers/ laborers travel during rush hours (7am to 9am) and evening hours (5pm to 7 pm). Parents travel during schools hours (11am to 1pm and 3pm to 4pm).

- 13. Has the population expressed an interest in getting involved in the transportation planning process?**

Not quite.

Communication

- 14. What needs or expectations for transportation-related language access services has this population expressed?**

Clients have requested more Chinese posters advertising transportation services on buses. Clients have also expressed a desire for MUNI to provide Chinese broadcasting for the "The Next Muni" programs.

- 15. What are your suggestions for language assistance measures that MTC should consider to improve its services?**

Provide a route map for the Muni lines in Chinese.

16. Do you think long-range planning and programming documents should be translated upon request or automatically translated for your community?

Documents should be automatically translated into Chinese because it is the 3rd most frequently spoken language in San Francisco.

17. What is the best way to obtain input from the population?

Surveys, town meeting, workshops, and online forums are effective ways to reach the population.

18. Who would the population trust most in delivering language appropriate messages?

Community leaders (e.g., David Chu), community partners and local media (e.g., television, radio and newspaper) are trusted sources of information.

APPENDIX O

Vital Documents Guidelines

4.0 VITAL DOCUMENT GUIDELINES

MTC is committed to full compliance with Title VI and Executive Order 13166 to provide meaningful access and reduce barriers to services and benefits for persons with limited English proficiency (LEP). In accordance with the U.S. DOT guidelines, MTC must determine which “Vital Documents” should be translated into the languages that meet MTC’s translation threshold.

To assist staff in determining the critical information and documents for translation, MTC has developed “Vital Documents Guidelines.” Classification of a document as Vital depends upon the importance of the program, information, service, or encounter involved, and the consequence to the LEP person if the information in question is not provided accurately or in a timely manner.

4.1 - Language Translation Threshold

The Factor 1 Analysis, described in Section 2.1, identified 1,264,820 individuals over the age of five who speak English less than “very well” (U.S. Census Bureau, 2016 American Community Survey). This figure accounts for 17.5 percent of the San Francisco Bay Area population. Using American Community Survey data, MTC identified thirty-one individual languages and language groups with 1,000 or more people who speak English less than “very well” and would be considered LEP persons (see Appendix B).

Within the nine-county MTC service area, Spanish-speaking persons account for the largest share of the LEP population with 7.3 percent, followed by Chinese-speaking persons with 4.2 percent. Within the remaining six percent of other LEP languages in the San Francisco Bay Area, there is no language that exceeds two percent of the LEP population share. Based on the Four-Factor Analysis related to 1) the number and proportion of LEP persons in the MTC service area, 2) the frequency of contact with LEP persons, 3) the importance of MTC programs and services to LEP persons’ lives and 4) the resources available to MTC, the Agency has determined that only Spanish and Chinese meet the Language Translation Threshold.

MTC concluded that providing language assistance in Spanish and Chinese would give the two largest population groups who are identified as speaking English less than “very well,” access to information and services in their language spoken at home. Documents determined as Vital will be translated into Spanish and Chinese without a specific request for translation.

4.2 - Categories of Vital Documents

MTC’s Vital Documents have been defined as follows:

1. Any document that is critical for obtaining services and benefits. Classification of a document as Vital depends upon the importance of the program, information, service, or encounter involved, and the consequence to the LEP person if the information in question is not provided accurately or in a timely manner.
2. Any document that is required by law.

The importance of MTC documents to LEP persons varies depending on multiple factors, including time-sensitivity and impact on legal rights. MTC has ranked Vital Documents into three tiers according to the definition above. MTC will re-evaluate these tiers on an on-going basis as language assistance demands and needs evolve.

Although a document may be classified as Vital, MTC is not required to provide a word-for-word translation. Instead, a summary of relevant information may be sufficient. The decision to translate Vital Documents will be weighed against available resources and staff capacity. MTC will continue to revise these guidelines as the Agency updates its Plan for Special Language Services.

Tier 1: Critical documents

Tier 1 documents are the Agency's highest priority. MTC will translate Tier 1 Vital Documents without request. Tier 1 documents include:

- Documents that, without translation, would seriously impede access by LEP persons to MTC services or programs
- Documents which, without translation, would deprive LEP persons of an awareness of their legal rights, particularly rights to language assistance

Tier 1 documents include Title VI information, legal and public hearing notices and select information for MTC services such as:

- Notification to beneficiaries of protection under Title VI
- Title VI complaint form
- Documents which would have life-threatening consequences, if not translated, such as information on construction projects that include information on construction safety and impacts
- Fare and service change notices related to the Clipper® program

Tier 2: Documents that will enhance access to MTC services and programs

Tier 2 documents include information that will enhance or facilitate the customer experience for LEP individuals. MTC will translate any Tier 2 Vital Document upon request. Additionally, some Tier 2 Vital Documents, at MTC's discretion and subject to available resources, will be translated without request. These documents may include the following:

- General MTC information
- Meeting announcements, agenda packets and other information for MTC Commissioners, Committee Meetings and Policy Advisory Council
- Promotional events that offer benefits to MTC customers (e.g., free or discounted Clipper® cards)

Tier 3: Documents that will enhance and support participation of LEP persons in transportation decision-making

Tier 3 documents include information that encourage LEP persons to participate in MTC transportation planning efforts. MTC will translate any Tier 3 Vital Document upon request. Additionally, some Tier 3 Vital Documents, at MTC's discretion and subject to available resources, will be translated without request. These documents may include the following:

- Information regarding long-range, regional transportation planning
- Long-term plans regarding transportation funding investments
- Environmental Impact Reports
- Legal notices published in newspapers announcing public comment periods on various documents or for other planning-related programs
