

Getting Creative with Existing Resources: Tip Sheet

Practical Paths to Safer Streets in Sonoma County

MTC Active Transportation + Vision Zero Project

CHALLENGE:

We have the expertise, but staffing is limited and projects are numerous.

SOLUTIONS:

TEAMWORK

Think outside the box! Civil Techs, Engineers, Active Transportation Planners all have a role to play in design.

FLEXIBILITY

Ensure install crews are given flexibility to iterate on designs in real time.

BUDGETING

Plan ahead: Set aside money each year for new projects and ongoing maintenance.

DESIGN

Update street standards to be inclusive of best practices not in the MUTCD

ON-CALL BENCH

Have a team of contractors ready to go any time you have a quick deployment project. Secure the on-call so that future projects aren't slowed by the bidding process.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
