Agenda Item 2d-24-0658

MTC Resolution Nos. 4615 Revised; 4635 Revised; and 4640. Allocation of \$22.7 million in Regional Measure 3 (RM3) capital funds to San Francisco Municipal Transportation Agency (SFMTA), San Mateo County Transportation Authority (SMCTA), and Sonoma County Transportation Authority (SCTA).

Subject:

Recommended allocations of a total \$22.7 million in RM3 capital funds to four projects: 10) Muni Fleet Expansion & Facilities—\$6.7 million to SFMTA for the Vintage Streetcar Rehabilitation Project (RM3 Project #10.7), \$11.34 million to SFMTA for the New Flyer Midlife Overhaul Project (RM3 Project #10.8); 18) Highway 101/ State Route 92 Interchange—\$2.7 million to SMCTA for the US Highway 101/State Route 92 Area Improvements Project (RM3 Project #18.1); and Highway 101-Marin/Sonoma Narrows—\$2 million to SCTA for the Marin Sonoma Narrows Mitigation Monitoring and Reporting Project (RM3 Project #20.2).

Background:

Bay Area voters approved Regional Measure 3 (RM3) on June 5, 2018, and on December 19, 2018, the Bay Area Toll Authority (BATA) adopted a toll schedule phasing in the resulting toll increase. BATA implemented the first and second dollars of the toll increase on January 1, 2019, and January 1, 2022, respectively.

MTC Resolution No. 4404, Revised, establishes policies and procedures to guide the delivery of capital projects funded by RM3. The overall RM3 capital expenditure program in statute is listed in Attachment A, including Commission-programmed subprojects, Letters of No Prejudice (LONPs), and allocations. Through May 2024, the Commission has approved a total of \$1.5 billion in RM3 Capital Program allocations.

June RM3 Allocation Recommendation:

Staff recommends approval of \$22.7 million in RM3 allocations to three projects. The table below shows the recommended projects for allocation this month; summaries of each request are included in Attachment B, and further detail is found in each allocating resolution.

June 2024 Recommended RM3 Allocations – Project Summary

MUNI Fleet Expansion and Facilities Projects

RM3 provides \$140 million in toll funds to RM3 Project 10, MUNI Fleet Expansion and Facilities. This RM3 programmatic category funds replacement and expansion of the San Francisco Municipal Transportation Agency's MUNI vehicle fleet and associated facilities. Two allocations under this category are proposed this month:

SFMTA – Vintage Streetcar Rehabilitation Project (\$6.72 million)

The Vintage Streetcar Rehabilitation Project (Project #10.7) will rebuild multiple components of special service streetcars 130, 228, and 226. The rehabilitations will include, but are not limited to, trucks, air compressor, and brake components. The rehabilitation will improve vehicle performance, safety, and reliability to allow vehicle use in more frequent special service capacity. The total project costs are estimated to be \$12.15 million. The project is currently undergoing final design and will be completed by December 2029. RM3 funds will be used for the construction/procurement of the project.

SFMTA – New Flyer Midlife Overhaul Project (\$11.34 million)

The New Flyer Midlife Overhaul Project (Project #10.8) will perform scheduled midlife overhauls on the New Flyer Fleet, following manufacturer recommendations. The New Flyer fleet consists of 40' & 60' motor coaches and trolley coaches. Maintenance data has shown that overhaul campaigns maintain vehicle reliability, significantly reducing incidents of breakdowns, preventing service interruptions and additional costly repairs. Of the 814 New Flyers, Phase I of the overhaul program will address the oldest 315 or 160 40' motor coaches, 155 60' motor coaches. The overhaul campaign will repair and replace key systems with like kinds. The oldest 112 coaches purchased in 2013 will be overhauled in-house with a reduced scope including the propulsion systems, air compressors, alternator, and automated passenger counters (APC) only. The remaining 203 coaches in the original scope were supposed to upgrade the older coaches with standardized/upgraded equipment for the LCD dashboard, BAE Green Zone, and wheelchair ramps. The revised scope no longer upgrades these elements to standard but

instead refurbishes or replaces these elements with the original standards to accelerate program pace. Furthermore, the project is eliminating parts replacements for all the regular preventive maintenance items.

The total project costs are estimated to be \$146.25 million. The project has started construction, which is expected to be completed by August 2025 and will be followed by a warranty year covered by FTA funding until July 2026. RM3 funds will be used to continue the construction/procurement of the project.

Highway 101/ State Route 92 Interchange

RM3 provides \$50 million in toll funds to RM3 Project 18 for Highway 101/ State Route 92 Interchange improvements. One allocation under this category is proposed this month:

SMCTA-101/92 Area Improvements Project

The San Mateo County Transportation Authority (SMCTA) is the project sponsor for RM3 Project 18, Highway 101/ State Route 92 Interchange. RM3 Project 18 includes funds for project 18.1: Highway 101/ State Route 92 Interchange - 101/92 Area Improvements Project. The 101/92 Area Improvements Project will provide improvements at the US 101 and SR 92 Interchange with up to four build improvements in the project area, including:

- Westbound SR 92 to southbound US 101 loop ramp;
- Northbound and southbound US 101 to eastbound SR 92 merging and re-striping improvement;
- Southbound US 101 Fashion Island Boulevard off-ramp;
- and a northbound US 101 at Hillsdale Boulevard off-ramp and intersection modification.

In March 2022, MTC approved a \$25,000 LONP for the right-of-way phase of the project and the first construction allocation in March 2024. Due to limited capacity in the STIP, RM3 funds will be used to fully fund the construction phase. Construction is scheduled to

begin by the summer of 2024, right-of-way activities are anticipated to be completed by the summer of 2025, and final construction of the project is estimated to be completed by the end of 2026. SMCTA requests \$2.7 million for the construction phase of the project.

Highway 101-Marin/Sonoma Narrows

RM3 provides \$120 million in toll funds to RM3 Project 20, the Highway 101-Marin/Sonoma Narrows project.

Marin Sonoma Narrows - Sonoma Segment: MSN C2 Resource Agency Mitigation Monitoring and Reporting Project

The Sonoma County Transportation Authority (SCTA) is the project sponsor for RM3 Project 20.2, Marin Sonoma Narrows in Sonoma County. The Sonoma segment includes \$30 million in toll funds for the MSN project. The MSN C2 project has added 3.6 miles of contiguous High Occupancy Vehicle (HOV) lanes to US 101 from the Route 101/116 Separation to 0.4 miles north of the Corona Road Overcrossing within the City of Petaluma. The C2 project will complete the HOV system in Sonoma County from the County line to Windsor. The MSN C2 HOV widening was achieved in late 2023, and close-out activities continue in 2024, but ongoing Mitigation and Monitoring will occur for ten years to meet permit requirements. SCTA requests an allocation of \$2 million in construction funds to complete the required Resource Agency Mitigation & Monitoring activities.
